

VELO ENERGY INC.

Velo Energy Appoints Director

Calgary, Canada, March 29, 2010 – Velo Energy Inc. (“Velo” or “the Company”) (TSX-V: “VLO”) announces that J. Christopher McLean (“Chris”) has been appointed as a director of the Company. Chris is the founder of Stonechair Capital Corporation and has been an active participant of venture capital projects for the last ten years. Prior to starting Stonechair Capital Corp, he was the Head of Capital Markets and Senior Investment Banker at a resource focused boutique bank and the Vice President of International Opportunities at a national firm. His experience with public and private companies has seen him finance projects throughout Africa, Europe, South and North America and Australia. He currently sits on the board of directors for Minera Licancabur, a Chilean copper producer, and is the corporate secretary for Black Marlin Energy Holdings Ltd, an exploration company with assets in East Africa.

About the Company

Velo’s shares are listed for trading on the TSX Venture Exchange (TSX-V) under the symbol “VLO”.

Forward Looking Statements

This press release contains forward-looking statements relating to the Offering and Velo’s intended operations. Those statements are based on Velo’s current expectations and assumptions as to a number of factors, including access to capital, regulatory approvals, closing of the acquisitions and general economic and industry conditions. If those expectations and assumptions prove to be incorrect, or factors change, then actual results could differ materially from the forward-looking statements contained in this press release.

Generally, statements included in this press release that address activities, events or developments that Velo expects, believes or anticipates will or may occur in the future are forward-looking statements. Such forward-looking statements involve substantial known and unknown risks and uncertainties, certain of which are beyond Velo’s control, including: the impact of general economic conditions in the areas in which Velo operates, civil unrest, industry conditions, changes in laws and regulations including the adoption of new environmental laws and regulations and changes in how they are interpreted and enforced, increased competition, the lack of availability of qualified personnel or management, fluctuations in commodity prices, foreign exchange or interest rates, stock market volatility and obtaining required approvals of regulatory authorities. In addition there are risks and uncertainties associated with the oil and gas industry, therefore Velo’s actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements will transpire or occur, or if any of them do so, what benefits, including the amounts of proceeds, which Velo will derive therefrom. Such statements are based on assumptions made by Velo based on its

experience perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances.
