Canadian Overseas Petroleum Limited
Notes to the Condensed Consolidated Financial Statements
As at June 30, 2015, and for the three and six months ended June 30, 2015 and 2014

1. NATURE OF OPERATIONS

Canadian Overseas Petroleum Limited (“COPL” or the “Company”), is a widely-held publicly traded company incorporated and domiciled in Canada. The Company’s common shares are traded on the TSX Venture Exchange in Canada and the London Stock Exchange in the UK. The Company’s registered office is in Calgary, Alberta at 400, 604 – 1st Street SW.

COPL and its subsidiaries are involved in the identification, acquisition, exploration and development of oil and natural gas offshore reserves. As at June 30, 2015, the Company has the following subsidiaries, all of which are wholly-owned:

- COPL Technical Services Limited, which is involved in providing technical services to the COPL group of companies;
- Canadian Overseas Petroleum (UK) Limited (“COPL UK”), which conducts the Company’s operations in the United Kingdom (“UK”);
- Canadian Overseas Petroleum (Bermuda Holdings) Limited and Canadian Overseas Petroleum (Bermuda) Limited (“COPL B”), which were incorporated to conduct operations offshore Liberia; and
- Canadian Overseas Petroleum (Namibia) Limited, which was incorporated in Bermuda in October 2014.

The Company, along with an unrelated company, Shoreline Energy International Limited, incorporated Shoreline Canoverseas Petroleum Development Corporation Limited (“ShoreCan”) in October 2014 in Bermuda to focus on acquisitions of upstream oil and gas exploration, development and producing assets in sub-Saharan Africa. Both partners hold a 50% interest in the joint venture.

On February 12, 2015, Canadian Overseas Petroleum (Nigeria) Limited was dissolved and removed from the Register of Companies in Bermuda, as the company ceased to carry on business, had discharged in full the liabilities to all its known creditors, and distributed its surplus assets in accordance with the Companies Act 1981 (Bermuda).

On February 23, 2015, the Company resolved to remove COPL New Zealand Limited from the New Zealand Register of Companies as the company ceased to carry on business, had discharged in full the liabilities to all its known creditors, and distributed its surplus assets in accordance with its constitution and section 318(1)(d)(i) of the Companies Act 1993 (New Zealand).

2. BASIS OF PREPARATION AND GOING CONCERN

Basis of Preparation and Compliance

The Company’s unaudited condensed interim consolidated financial statements (“financial statements”) have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting” following acceptable accounting policies under International Financial Reporting Standards (“IFRS”) and are reported in thousands of United States dollars (“\$”). The Company’s financial statements should be read in conjunction with the Company’s audited annual consolidated financial statements as at and for the year ended December 31, 2014, which outline the Company’s significant accounting policies in Note 3 thereto, which have been applied consistently in these financial statements, except as noted below, as well as the Company’s critical accounting judgments and key sources of estimation uncertainty which are also set out in Note 3 thereto.

2. BASIS OF PREPARATION AND GOING CONCERN (continued)

Going Concern

These financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

Currently, the Company does not have material cash inflows and/or adequate financing to develop profitable operations. The Company is pursuing exploration projects and contracts that will require substantial additional financing before they are able to generate positive operating cash flows. Accordingly, the Company's continued successful operations are dependent on its ability to obtain additional financing. There is no assurance that the Company will be able to obtain adequate financing in the future or that such financing will be obtained on terms advantageous to the Company. With no assurance such additional financing will be obtained in 2016, there may be significant doubt the Company will be able to continue as a going concern. These financial statements do not give effect to adjustments that would be necessary to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going concern.

The financial statements were authorized for issue by the Company's Board of Directors on August 12, 2015.

3. SIGNIFICANT ACCOUNTING POLICY CHANGES

Change in functional and presentation currency

Effective January 1, 2015 the functional currency was changed from the Canadian dollar to the United States dollar for the Company. The measurement change is due to the focus of the Company in sub-Saharan Africa, for which costs are denominated in United States dollars ("USD"). As a result of the Company's focus in areas with USD functional currencies, the Company has also re-denominated the intercompany debt agreements to USD.

Effective January 1, 2015, the Company's presentation currency was changed from the Canadian dollar ("CAD") to the USD. The change in presentation currency is to better reflect the Company's business activities and to improve investors' ability to compare the Company's financial results. This change has been applied retrospectively as if the new presentation currency had always been the Company's presentation currency. For comparative balances, assets and liabilities are translated at the rate prevailing at the reporting date. The statements of comprehensive income (loss) were translated at the average exchange rates for the reporting period or at the exchange rate prevailing at the date of the transaction. Exchange differences arising on translation were taken into cumulative translation adjustment in shareholder's equity. See Note 12 for the resulting change in presentation currency on comparative figures.

The fair value of cash and cash equivalents was \$0.9 million as at June 30, 2015 (\$4.7 million as at December 31, 2014 and \$2.2 million as at January 1, 2014). The Company deposits its cash with reputable Canadian, UK and Bermuda banks. The Company did not have any overdraft facilities in place as at June 30, 2015, December 31, 2014 and January 1, 2014.

5. INVESTMENT IN JOINT VENTURE

The Company currently holds a 50% interest in a jointly controlled entity, ShoreCan, to focus on acquisitions of upstream oil and gas exploration, development and producing assets in sub-Saharan Africa. The determination of ShoreCan as a joint venture was based on ShoreCan's structure through a separate legal entity whereby neither the legal form nor the contractual arrangement give the rights to the owners to the assets and obligations for the liabilities within the normal course of business, nor does it give the rights to the economic benefits of the assets or responsibility for settling liabilities associated with the arrangement.

On February 20, 2015, ShoreCan entered into a commercial acquisition, ratified by the Ministry of Energy in Namibia, of an 80% interest in three blocks offshore Namibia. The blocks are defined as 1708, 1709 and 1808.

On March 4, 2015, ShoreCan entered into a farm-in option agreement to acquire a 60% participating interest in the Petroleum Exploration License and Petroleum Agreement with respect to the Kimbiji and Latham offshore Blocks in Tanzania. On exercise of the option and receipt of approval from the Tanzanian authorities, ShoreCan will assume operatorship of these offshore blocks.

As at June 30, 2015, ShoreCan has commitments of \$0.2 million for annual license fees due in the fourth quarter of 2016 and \$7.0 million which relate to a minimum work programme to be carried out by the second quarter of 2017, under its exploration license in Namibia. In the event that the acquisition of seismic data does not occur in accordance with the work programme, there is no financial penalty to ShoreCan and the license is subject to forfeiture after that date. ShoreCan is currently exploring alternatives for raising sufficient capital to complete the minimum work programme, and plans to proceed under the terms of the exploration license. ShoreCan has capitalized costs in Namibia of \$0.3 million as at June 30, 2015 (December 31, 2014 - \$nil).
